

Annex 1 – Comments frequencies and categories

Final category	Resp	Comment	Sub-cat
Affordable/social	5	Affordable Housing for Local people	
Affordable/social	2	of course	
Affordable/social	3	Young families	
Affordable/social	10	Indeed	
Affordable/social	2	Important	
Affordable/social	5	Mix of market and affordable housing	
Affordable/social	1	Yes when “affordable” matches local salaries	
Affordable/social	8	2 bed terrace housing – not just exec property	
Affordable/social	4	You must have mix of housing to generate growth in village	
Affordable/social	5	No more affordable housing in our lovely village	Other
Affordable/social	1	Yes but will demand take-up tie up with processed need??	
Affordable/social	8	Affordable housing needs to match needs of locals-not to have influx of people from outside the village who need homes	
Affordable/social	1	Encourage small scale development – self build?	
Affordable/social	1	Only if balances out village facilities	Other
Affordable/social	2	More housing needed within OAP complex!!	
Affordable/social	2	Provide rented housing	
Affordable/social	2	Yes more housing for locals that have lived here all there life	
Affordable/social	1	There has been considerable development in the village in the last 15 years why has this not provided sufficient affordable housing	Other
Affordable/social	1	Small scale developments	
Affordable/social	1	The new houses that have already been built are too expensive for young families	
Affordable/social	1	Social housing only please	
Affordable/social	1	All new houses should be social houses	
Affordable/social	1	We do not require any further development of expensive housing. Some assistance with social housing for less well paid/younger people could however be considered but within agreed boundaries	
Affordable/social	2	New social housing for young kid Llangynidr residents – not to house those outside the village	
Affordable/social	2	Any new housing should be for local people – not for more commuters which puts more cars on the road	
Affordable/social	1	These are being built for greed – large expensive, no outlook for villagers	
Affordable/social	1	Don't know a single person from the village buying one – the houses aren't for locals! All so expensive. Young can't stay	
<u>Affordable/social Sum</u>	<u>74</u>		
Allotments	17	Allotments bring a community together and enhance health/well being	
Allotments	1	Allotments on Persondy Field perhaps?	
Allotments	1	Allotments great idea!	
Allotments	1	They don't need to be big	
Allotments	1	Please no allotments thank you	No
Allotments	1	No they create an eye sore always	No
Allotments	4	Gardening is good for health and well-being	
Allotments	2	Not allowed to sell if grown on allotment - “swap shop?”	
Allotments	5	Community well being/mindfulness/ good health/ friendship/sustainability etc	

Allotments	3	Community Orchard	
Allotments	1	It will never last!	No
Allotments	5	Allotments that can be used to grow sell veg which can be made into veg boxes for food banks	
<u>Allotments Sum</u>	<u>42</u>		
BBNPA	1	First phase failed, but no guarantee it will pass in the future. What guarantees are there that they will not be developed on	
BBNPA	1	Relationship and interaction between - Welsh Govt – Powys CC -BBNPA must be reviewed and clarified to make them work together effectively	
BBNPA	1	Where is the National Park to protect this village – its a disgrace	
BBNPA	1	Planning Department should acknowledge “mistakes” allowed in the past, so not allow them to be used as precedent	
BBNPA	1	We need to know what is planned? Village feel being eroded. National Park?? No real need!	
BBNPA	1	The authority should <u>pay close attention</u> to residents views expressed here today and not just regards it as a box-ticking exercise for public consumption	
BBNPA	1	Need more OAP bungalows and adapted housing for disabled	
<u>BBNPA Sum</u>	<u>7</u>		
Bridge	1	Is the bridge strong enough to take anymore traffic?	Other traffic growth
Bridge	1	Infrastructure cannot cope with traffic, school already at max pupils. River bridge will not take extra traffic. More thought needed	Other traffic growth
Bridge	4	Any housing developments here (or along the Heads of the Valleys- Llangorse corridor) will lead to increasing problems on the bridge and the approach roads. There is a need for limiting traffic growth.	Other traffic growth
Bridge	25	Bridge lights need review	
Bridge	16	Bridge light control not helpful – adds confusion (as vehicle could be moving in either direction	
Bridge	2	Bridge light does not work. People <u>no longer wait</u>	
Bridge	1	Traffic lights for bridge because the light up signs don't work that well (practically)	
Bridge	5	Bridge pinch points should be further from the bridge- where reversing and turning is easier and avoids blocking the road	
<u>Bridge Sum</u>	<u>55</u>		
Broadband	45	Desperate need	
Broadband	1	We already have optic fibre to premises in Llangynidr !!! - but it costs a bit more to have it connected.	
Broadband	18	We need a better one – we need cell 'phone coverage and DAB Radio/FM Radio	
Broadband	10	Broadband fine- need phone signal	
Broadband	5	Reliable broadband – not keep dropping	Consistency
Broadband	4	Regular phone signal	Consistency
Broadband	8	Drops too frequently	Consistency
Broadband	4	Essential for home-based workers, rural businesses and farms completing RDA online	
Broadband	2	We need consistency	Consistency
Broadband	1	You can get a mobile phone boost box from O2 to solve the no signal problem.	Other

Broadband	1	EE offer WiFi calling which works as long as you are in Other range of your wifi router.
<u>Broadband Sum</u>	<u>99</u>	
CC	3	Important to reduce crime, increase morale and seuse of responsibility to one's community. Reduce boredom.
CC	2	what crime ?
CC	4	Encourage younger people to ecome involved in community activity
<u>CC Sum</u>	<u>9</u>	
Conservation	6	Already part of farming practice – continue
Conservation	4	But also encourage more information about what makes a difference and better oversight? We are still swimming in plastic refuse
Conservation	3	Reduce/remove pesticides
Conservation	10	Insensitive new development goes against conservation of the area
Conservation	3	Conservation should underpin any development or change of use
Conservation	1	No more trees and hedges removed, leave long grasses reduce boarder cuts, let nature take control for once
<u>Conservation Sum</u>	<u>27</u>	
cultural heritage	2	Cultural Heritage
cultural heritage	14	Need to maintain
cultural heritage	1	BBNPA should be thinking about this
cultural heritage	9	Bring back eisteddfordd
cultural heritage	6	Walking festival?
<u>cultural heritage Sum</u>	<u>32</u>	
Dog waste bin	1	Why has the dog waste bin been removed from castle road outside Robyn If it is because of the nearby house then why is there a different rule for Bluebell Cottage having one?
Dog waste bin	4	Dog waste bins – why was the waste bin removed on castle road by the new houses ? It was removed and never replaces = increase litter on that lane now that it has gone?!!
Dog waste bin	1	Why hasn't this dog waste bin been replaced and why was the hedge removed for a wooden fence
Dog waste bin	2	It would be great to see the dog bin back on castle lane as a farmer farming on the lane we constantly have black dog mess bag thrown in our fields!!!
Dog waste bin	4	Dog Poo bins in key locations to reduce fouling
Dog waste bin	3	Replace litter bin by Castle Road on the lane by the new houses – it was removed and never replaced?!! Why? Now more litter on lane
Dog waste bin	7	More bins for dog poo! More signs to encourage people to pick up dog poo.
<u>Dog waste bin Sum</u>	<u>22</u>	
Employment	5	New fibre optic cable! Let people work from home
Employment	4	Need to diversify local economy – more jobs : not just tourism
Employment	4	But, we could encourage small (tech need broadband to work) start-ups/companies
<u>Employment Sum</u>	<u>13</u>	
Energy	1	Could this reduce utility bills?
Energy	1	Solar on all new builds !!
Energy	1	on roofs not fields
Energy	2	Community energy Production

Energy	19	Hydro!	
Energy	2	When suitable ways arise yes	
Energy	1	solar panel fields ?	
Energy	1	Roofs	
Energy	6	Need upgrade to grid <u>or</u> use it locally	
Energy	1	Solar panel fields EYESORE	
Energy	6	Instead of houses !	
Energy	1	Conflict with wild flower meadow?	
Energy	4	Wind farm on top of mountain	
Energy	6	Grants for sustainable energy – less oil	
<u>Energy Sum</u>	<u>52</u>		
Exercise facilities	7	Yes	
Exercise facilities	35	Encourage use of village hall day and evening	
Exercise facilities	15	Village Hall Needs improvement ie Wifi(9), better acoustics(2), projection facilities(1), bar cafe (2)	
Exercise facilities	5	Outdoor exercise equipment for all to access	
Exercise facilities	1	After work	
Exercise facilities	2	Try walking – agreed	
Exercise facilities	4	Maintain whats there	
Exercise facilities	8	Improved playground facilities(3) – 1000% better playground facilities for the 6yrs-12yrs (4)	
Exercise facilities	3	Out door gym for all age ranges at the park	
Exercise facilities	1	Its a shame we dont have facilities at the park and village hall like that of Talybont. The palygound facilities are not great. Not a lot for kids to do.	
Exercise facilities	2	Abroad they have outdoor gym equipment , which would be good to put in the park. - good idea but very seasonal use here.	
<u>Exercise facilities Sum</u>	<u>83</u>		
Facilities	3	Community facilities	
Facilities	3	Should increase in line with increased population and ageing population	Other
Facilities	25	Cafe has been a big success I think	
Facilities	9	Teenagers need resources	Other
Facilities	6	Outdoor exercise area	Other
Facilities	2	Greater use of community development offers to initiate activities in community which can then be self sustaining	Other
Facilities	13	Running track around park exercise area, encourage outdoor learning for children look at Talybont for ideas Solar powered bike area etc.	Talybont
Facilities	13	Talybont park great to work toward – gret example of use of external funding sources (eg lottery)	Talybont
Facilities	2	Skate park / BMX bike park	Other
Facilities	1	We have a small skate park already – extend if funds can be raised (name supplied)	Other
Facilities	2	Make a skate park like Brecons	Other
Facilities	2	Keep the footpaths in good order – free exercise	Other
Facilities	3	Exercise facilities like Talybont ie running track	Talybont
<u>Facilities Sum</u>	<u>84</u>		
Food	10	Local Food Production	
<u>Food Sum</u>	<u>10</u>		
Green waste containers	20	Garden waste recycling needs to be weekly all year	
Green waste containers	5	Bring back the big green containers in car park as well as green bins	
Green waste containers	21	Put back garden waste in the car park	
Green waste containers	9	Green waste collections 6 mnth yr inadequate for rural location	

Green waste containers	23	Put back green waste facilities, current arrangement is just start of stealth taxes.
Green waste containers	22	Removing green waste bin in parking lot is a disaster for those living at a distance from the village eg up the dyffryn. Means more huge lorries in tiny lanes, more diesel and pollution, more burning of waste and danger of fires on moors and woods, more traffic in lanes where children play and cattle are driven, more plastic items left on edges of roads. Surely it cannot be cost effective or ecological! May be helpful for people in village to have individual pick up. Not good for people living on outskirts who have to drive to village anyway and can bring waste down to a central bin without extra road use, fuel consumption, congestion and danger to kids and livestock. (I did purchase a green bin – my waste has not been picked up since April despite several calls to Council and promises made.)
Green waste containers	2	Facilities can be determined by bean counting “locally” - it is not apparent that the primary target is reducing environmental load, driving long distances is counter productive.
Green waste containers	7	The more difficult you make it for people to dispose of waste properly – the more they will resort to dumping it.
Green waste containers	3	Loss of green bins is leading to more bonfires.
Green waste containers	2	Need to reinstate green skips in car park . Not doing so is bad for the environment – climate change. Hundreds of people having to drive to brecon with rubbish.
Green waste containers	26	Bring back the recycling bins
Green waste containers	3	Garden recycling
<u>Green waste containers</u>	<u>143</u>	
<u>Sum</u>		
In fill okay	2	Put smaller house in the smaller spaces in the village – in fill rather than create a 20 house site
In fill okay	6	In fill building on large gardens rather than large developments
In fill okay	1	Too big an area to develop need for housing is a few- not a major development. Village roads and infrastructure not suitable for large scale
<u>In fill okay Sum</u>	<u>9</u>	
LASS	1	The annual Ag and Garden show is extremely successful community/village/tourist farming event. Why destroy it by taking the land????
LASS	1	Used for village show should remain as pasture
LASS	1	(Used for village show should remain as pasture) I agree
LASS	1	Losing LASS parking and livestock facilities (name supplied)
<u>LASS Sum</u>	<u>4</u>	
Litter picking	1	Litter pick regular group
Litter picking	3	Litter bins needed by the river
Litter picking	1	Riverside plastic collection
<u>Litter picking Sum</u>	<u>5</u>	
Mardy	1	Area in centre of village is part of the character of the village. Area around village hall is important
Mardy	19	Conservation area for Mardy Lane
Mardy	3	Playing Fields
<u>Mardy Sum</u>	<u>23</u>	

More development	1	The recent development has brought a lot of young children to the school which is encouraged more homes (market and affordable) will bring young families
More development	1	Need more houses don't want a ghost village
More development	27	More development to support shop, pub, school, etc no one wants to live in an OAP village
More development	3	More houses to to keep school viable
More development	3	The school needs to survive – no growth will make it vulnerable
More development	14	Build for families <u>not</u> for retirees from out of area
More development	13	What youngsters ? No housing, no youngsters.
<u>More development Sum</u>	<u>62</u>	
New homes if infrastructure okay	1	No problem with housing increasing as long as there is sufficient infrastructure to support it, ??? educates, transport
New homes if infrastructure okay	1	New houses are way too expensive for young families. Local young people can't afford to stay Young people brought up in the village can't afford to live here. Need affordable housing for them and not second homes.
New homes if infrastructure okay	1	Further significant development is bound to put further strain on utilities
<u>New homes if infrastructure okay Sum</u>	<u>3</u>	
no more holiday homes	1	Discourage too many holiday/second homes which create ghost villages
no more holiday homes	1	How many houses are second homes or holiday homes
<u>no more holiday homes Sum</u>	<u>2</u>	
No more houses	4	What is definition of Natural / National Park? Surely there are enough houses here already, not all of them tasteful eg top of forge road!!
No more houses	1	No more houses needed
No more houses	1	I agree (no more houses needed)
No more houses	1	Out of character town houses style too prominent not enough screening highly visible from surrounding hills
No more houses	1	No more houses
No more houses	1	Support your strategy for no further development within Llangynidr
No more houses	3	Enough development already character of village already changed and not for the better. How many houses proposed
No more houses	1	Enough houses already in Llangynidr
No more houses	1	No more housing developments needed or ??????? the village is fast becoming a suburban mess
No more houses	6	These three sites (pencommin, and either side of waterloo house) connect Lower and Upper Llangynidr creating sprawl – a bad thing
No more houses	1	No more housing developments/no more holiday homes/second homes
No more houses	4	No more 3 storey town houses
No more houses	3	No more development
No more houses	10	Please no more housing developments in the village
No more houses	1	No more houses as local children are losing places due to influx? Already not necessarily secured a place for my daughter - not relating to primary school of course.

No more houses	5	Llangynidr does not need any more development . The majority of people moving into the village will have one or more cars and will drive considerable distances to go to work or shopping etc. Totally unsustainable
<u>No more houses Sum</u>	<u>44</u>	
Other	1	Will any notice be taken of this local development meeting? Before such a meeting hasn't produced results that the community wanted!!
Other	1	Convert (field) to wildflower meadow
Other	1	Areas in centre (pencommin field and either side of waterloo house) should be used for the community – village show adjacent to footpath
Other	1	Historically open footpath has been closed with chains from fairy glen to lane above, open for 40 yrs +
Other	4	Usk Riverbank and Canal towpath should become specially cared areas.
Other	1	And other areas by footpaths
Other	1	Review unadopted roads and lanes to ensure fair maintenance
Other	2	I have yet to see a B&B board in this village!
Other	1	Stop farmer spraying pesticides/muck spreading/burning waste
Other	1	This is why it is such a lovely place to live in the country thanks to farmers
Other	2	Tourism/school/village enterprises etc..
Other	2	Build a purpose built office
Other	3	promote live-work
Other	2	Specific items need to be identified not just a general wish
Other	4	See comments on allotments
Other	2	What is the definition of above?
Other	2	Farmers diversifying? Organic veg production for local market
Other	1	Already told not necessarily a place for my daughter secure in primary school
Other	1	Many houses now used for Air B&B in village
Other	2	Not necessary but not at the cost of local children losing places due to influx of incomers
Other	5	I trust this isn't a reference to the primary school because the statement above is not accurate as per LCP We desperately need more children!!
Other	1	Cross reference to climate change issues – see points made there
Other	5	Fly tipping in recycling are is becoming a problem – heavy fines necessary
Other	2	Pubs don't recycle !!!
Other	1	Inevitable – will have to adapt
Other	1	Tourism is only hope
<u>Other Sum</u>	<u>50</u>	
Pavement	20	Pavements (esp. Forge Road and Cwm Crawnon Road)
Pavement	1	Church Close near new houses, especially at night
Pavement	1	pavements should be “full length”
Pavement	1	Forge Road is a path to school, one old lady was told to get off the f...ing road
Pavement	1	Dropped kerbs for those who live in council occupied homes on Cae Porth!

Pavement	10	Forge Road very busy at certain times of the day- hazardous for children walking to school and school bus
Pavement	11	Visibility poor exiting Erw Bant onto Forge Road (especially turning right)
Pavement	8	Absence of path is increasingly <u>dangerous</u>
Pavement	6	Great pedestrian danger between erw bant and canal bridge, blind brow and <u>no</u> pavement
Pavement	1	Rubbish!!!
Pavement	1	Providing footpaths would be ideal but traffic management would be a challenge
Pavement	2	Pavements on all roads and both sides
Pavement	5	Dyffryn Road – cars drive too fast via school/need road bumps or flashing signs to encourage 20mph. Drivers do not adhere!
Pavement	1	Especially near Red Lion Pub, what about cycle paths!!!
Pavement	1	New Houses in Chruch Close must tidy up the pavements and kerbs
Pavement	1	Surely the council's job!
Pavement	6	Encourage parent to use car park and not park on road
Pavement	1	Really need pavements through the main part of the village
Pavement	1	Council to keep kerbsides cleaner on main roads through the village
Pavement	1	Ban parking on the pavements
<u>Pavement Sum</u>	<u>80</u>	
PCC	3	* entrance to Orchard Lane often used wrongly as a “Communal waste transfer station” either stop it; or create facility
<u>PCC Sum</u>	<u>3</u>	
Recycling	14	Recycling for soft plastics needed
Recycling	4	Yellow bags for nappies/feminine hygiene/carers/etc. MCC collect yellow bags every week a fantastic system
<u>Recycling Sum</u>	<u>18</u>	
Sewers	4	Not fit for purpose especially if further houses
Sewers	3	Welsh water promised a public meeting sewerage has not been updates since 1968 as my house then was the last on the scheme at the time
Sewers	17	If sewers greatly improved would that lead to a rash of new houses? Just need minor upgrade. Why have all the new houses been granted permission anyway?
Sewers	1	What has this got to do with the LDP?
Sewers	2	Sewers terrible – Clos Castell houses struggle let alone the new road behind
Sewers	1	Had to unblock drains loads
<u>Sewers Sum</u>	<u>28</u>	
Surgery	1	For those living in a geriatric community!
Surgery	20	Doctors surgery
Surgery	1	Need one as transport is not good to get to Crickhowell
Surgery	2	Many elderly people find it onerous to get on and off the buses
Surgery	1	The Crickhowell Car Scheme is available to take elderly people to doctors or hospital appointments
Surgery	1	If you are unwell, travel on public transport/car to crickhowell can be difficult

Surgery	1	Yes a surgery would be very helpful IF does not create further parking pressure	
Surgery	1	A great need – <u>Social</u> cost not understood by Crickhowell Surgery – who have a branch in Gilwern serving a <u>smaller</u> population!!	
Surgery	1	Housing development in Cwrt y Gollen was refused a while ago with one of the reasons being pressure on local NHS services. We rely on the same surgery. GP recruitment is a problem already and can the wider area sustain significant population growth,	
Surgery	9	Drop in centre/surgery at village hall perhaps? GP weekly slot? Shop has a fantastic pharmacy delivery prescription service	
Surgery	1	When the hospital in Abergavenny closes for most medical emergencies where do Llangynidr residents go? Will there be alternatives to going to Cwmbran?	
Surgery	1	To abergavenny for minor, to Cwmbran for Major	
Surgery	1	(GP surgery) probably not practical (no support services)	
Surgery	1	Flu jabs already available therefore makes sense to have GP nurse practitioner drop in centre in village.	
Surgery	1	Powys and HB is having to close GP surgeries/branch surgeries due to lack of Gps so this is unlikely to be a sustainable option.	
<u>Surgery Sum</u>	43		
Tourism	1	Part of the future again inevitable	
Tourism	16	To be <u>sustainable</u> tourism needs to include much better protection of the environment. Appropriate road signage , especially where narrow lanes are being used by far more traffic, Litter campaigns. Redirection of caravans etc away from LI. Bridge Better control of illegal off road m bikes	
Tourism	2	No more holiday cottages	
Tourism	1	No more signs	
Tourism	6	Copy the lake district- park and ride (in bigger towns) for walkers and cyclists, also provides more local buses, reduces traffic “ an integrated system”	
Tourism	1	Provide local tourist information	
Tourism	1	More parking for tourists so they dont block my street	
<u>Tourism Sum</u>	28		
traffic	2	We are concerned about the volume and speed of traffic on Forge Road, especially on the stretch from the junction to the bridge. We feel the speed limit should be 20MPH here. Also cars and minibuses parking on the hill by the canal pull in is very dangerous and we’ve witnessed a couple of near misses. (by email)	Forge Rd
traffic	2	By Pass	Other
traffic	14	Parents should park in the main car park and WALK – definitely, thats why god gave us legs!	
traffic	1	Parents often under pressure to get to work on time too and travelling some distance	
traffic	1	Parents need to arrive earlier!	
traffic	6	Widen entry into Dyffryn Road – agree cars are currently mounting the pavements	
traffic	4	Disagree would encourage cars to go faster	
traffic	7	Calming as in Llangorse (priority system)	Calming
traffic	7	Veto <u>any</u> planning that could aggravate traffic problems	Veto

traffic	5	Zebra crossing from Car Park to/school to village hall side	Hall/car park
traffic	3	30mph signs and traffic calming on Cwm Crawnon Road between Forge Road and the Coach and Horses. Everyone speeds up here assuming it is 60mph – it is dangerous for houses along this road- nearly been hit several times leaving our drive.	Calming
traffic	1	Need to be moved inside pinch points	Other
traffic	1	unworkable	Other
traffic	1	Ask locals	Other
traffic	11	Traffic Calming needed on forge road to sloe speed of traffic approaching the bridge and discourage cut through between A40 and Heads of the valleys road	Calming
traffic	1	We need to slow traffic down Dyffryn road 100%	Dyffryn Rd
traffic	10	Double yellow lines outside school on Dyffryn Road, blind bend and parking=accident waiting to happen involving young children at hands of irresponsible adult drivers!	Dyffryn Rd
traffic	3	Back lane from Crickhowell is becoming increasingly dangerous with greater volume of traffic – plus fast lorries and farm vehicles!	
traffic	4	need claming points like llangorse between the bike shop and the rectory field	Calming
traffic	1	Traffic is <u>always</u> speeding through the village	
traffic	1	Beaufort Road over mountain is unfenced- traffic is such a hazard to live stock and losses threaten farmers' livelihood	Other
traffic	3	Footpath along full length of cwm crawnon road	
traffic	15	There is a very busy” rush hour” morning and evening on Forge Road when traffic from bridge to mountain road is non stop and speeding. There will be an accident soon. Forge road is a higher priority for traffic calming points – at ery least a 30mph reminder beacon- 20mph ideally! There will be an accident soon.	Forge Rd
traffic	1	Long term – a new bridge to divert traffic away from the village.	Other
traffic	1	Late night speeding through village every night!!!	
traffic	2	Yellow lines on bottom castle road! Parked cars cause risk to pedestrians and motorists	Clos Castell
traffic	1	Locate pinch points to crossroads higher up road to Bwlch – allows space for large vehicles tp 3pt turn.	Other
traffic	5	New zebra crossing by the village hall for kids and parents to cross safely to and from the hall and park.Speeding cars in the 30mph zone make it hazardous to cross. Stop them speeding please!!	Hall/car park
traffic	1	Farmers accessing road to castle lane from church close having problem with car parked all by new houses could not get bailer through yellow lines would be good.	Clos Castell
traffic	1	Illuminated speed restrictions as Gilwern as above 30mph.	Calming
traffic	4	Speed bumps Forge Road/Cwm Crawnon Road- you take your life into your hands wlaing children along here.	Forge Rd
traffic	1	Colour in tarmac 1m wide on each side of Forge Road to demonstrate that there is not enough room for a pedestrian and 2 cars to pass. There have been too many near misses with pedestrians flattened against walls	Forge Rd

traffic	1	Illuminated speed sign for Cwm Crawnion Road to slow Hall/car park down especially as approach playing fields from both directions	
traffic	1	Please traffic calming measures!	Calming
<u>traffic Sum</u>	<u>123</u>		
Transport	1	Need better transport to employment – not like we are going to plan a massive factory in village and make 300 jobs	
Transport	16	Improve bus service	
Transport	5	More buses through the village / later in the day	
Transport	9	Improve bus service	
Transport	19	More buses more often	
Transport	20	More <u>smaller</u> buses more often, better for crossing the bridge	
Transport	9	More services – last bus from Abergavenny too early	
Transport	12	Better bus service later returns	
Transport	7	Buses to run later in the day to and from Brecon and Aber	
Transport	8	It is impossible to live here and work elsewhere without using a car. Not good for the environment, better public transport would help	
Transport	2	Bikes (push and electric) for use to reduce no of cars and replace co2 producing vehicles	
Transport	1	Evening bus service to crickhowell	
Transport	15	Bus over mountain to Ebbw train would enable commuting access to more employment	
Transport	7	Fantastic idea-connecting to rail links	
Transport	2	Integrate transport (bus to rail) - create sustainable transport links	
Transport	3	Car share system?	
Transport	1	Small scale initiative to help set up a car share scheme. Lots of people struggling with transport and lots of empty seats in cars. Set up online system to share. If it works roll it out to other villages	
Transport	2	More frequent buses to encourage less car use	
Transport	2	Better more frequent public transport	
<u>Transport Sum</u>	<u>141</u>		
VHC	3	Park needs improvement – Talybont great example	
VHC	10	Running track around the tennis/playpark exercise area/cricket/multiball courts/ better safer playground facilities/playground needs updating	
VHC	4	Better playground for the older children, scooter ramps for the teens.	
VHC	6	Upgrade play park	
VHC	1	Closed bin in the park please – animals drag rubbish all around the park.	
VHC	1	Training for coaches – running and other sports	
VHC	2	Upgrade play park and new ramps and upgrade	
VHC	5	Running track great idea – would increase useage of whole area	
VHC	2	Skate/BMX Park	
VHC	6	Youth Club and indoor winteractivities too	
VHC	5	New Skate ramps of better quality and new tarmac for the skatepark	
VHC	1	Encourage group activities such as artgroup etc	
VHC	1	Discussion group etc	
VHC	13	More initiatives in the village	
<u>VHC Sum</u>	<u>60</u>		

Volume of traffic too much	1	All road into the village are B roads. Can't take anymore volume of traffic
Volume of traffic too much	1	Traffic volume at times exceeds reasonable capacity in Coed-yr-ynys road. There would be severe congestion if any more houses were built on this road.
<u>Volume of traffic too much Sum</u>	<u>2</u>	
Volume traffic too much	1	The roads in and out of Llangynidr cannot take more traffic! So more development must be match by new roads!
<u>Volume traffic too much Sum</u>	<u>1</u>	
waste	3	<u>OK bin men help with big green bin</u>
waste	6	Large bin for general waste would be helpful
waste	4	Facilities locally for disposin of unpleasant materials would be useful (batteries, chemicals. Paint)
waste	2	Dog poo , yellow bins for nappies/feminine hygiene /car waste/green bin waste/soft plastic waste and local compost.
<u>waste Sum</u>	<u>15</u>	
Wildlife	14	Need to look after and improve
Wildlife	8	More volunteers for litterpicking?
Wildlife	2	Needs to underpin any development
Wildlife	20	Stop cutting down hedgerow trees while trimming hedges and banks and removing strips of hedgerow altogether. Wildlife habitats are crucial and disappearing
Wildlife	12	We could do with (a) wildflower meadow(s)
Wildlife	1	Greater Community involvement (especially young people) to reduce litter (on mountain road) and to promote wildlife on verges
Wildlife	5	Protect our wildlife /hedgehogs/bees/etc/create bug schools in park for children to enjoy/nurture. Plant approp plants/flowers for our bees
Wildlife	1	Maintain and look after helps also to bring tourists
Wildlife	3	Plan for tree planting
Wildlife	1	Less houses...
Wildlife	4	Strategy for riverbank and canal towpath
Wildlife	6	Encourage tree planting
<u>Wildlife Sum</u>	<u>77</u>
